Summary

Highly motivated Computer Science student at Western University with a proven track record of academic excellence, athletic achievement, and leadership. Proficient in Java, Python and other coding languages, with experience in customer service, mechanical work, and fast-paced environments.

Work Experience

Grain Woodcrafting, Windsor, ON – Carpentry (April 2025– August 2025)

- Cut cabinet parts on a CNC machine, edgebanded and sanded parts, built cabinets, built drawers and helped install kitchens.
- Assisted with a time study of the shop, to see where there are inefficiencies, furthermore this study aided with creating an effective quoting estimation for builds based on time.

Vollmer, Windsor, ON – Electrical Labourer (July 2024 – August 2024)

- Contributed to the construction of the Gordie Howe International Bridge.
- Assisted electricians with installing cables, and other labour work.

McDonald's, Windsor, ON – Crew Member (November 2022 – June 2024)

- Prepared food, maintained cleanliness and sanitation standards, managed inventory (unloading deliveries, stocking), and provided customer service.

Bike Kitchen Windsor, Windsor, ON – Bike Mechanic and Sales (August 2021 – March 2022)

- Repaired and built bicycles, provided customer service, processed sales transactions (cash and Square), and maintained a safe work environment.

Education

Western University, London, ON – Year 2, Bachelor of Science (Honours) in Computer Science

- Senior Member, Varsity Wrestling Team (September 2024-present)

Assumption College Catholic High School, Windsor, ON – International Baccalaureate Certificate (2024)

- **Ontario Secondary School Diploma, 90% Average**
- **International Baccalaureate Certificate**

Skills

- **Technical Skills:** Java, Python, C, C++, ARM Assembly, HTML, CSS I have built multiple solo programming projects, over 100 leetcode problems solved. I am knowledgeable with wireshark, linux terminal, nmap and other network security tools.
- **Projects:** I have built a personal website, an image compressor, various 2d games in java, and some other small projects. Furthermore I helped with the redeployment of the western wrestling website after it was down for several years.
- **Languages:** English
